CONTENTS FOR

FLUID MECHANICS–Soviet Research

Volume 7, Nos. 1-6, 1978

Number 1

i **Editor's Preface**
N. Zuber

1 **Introductory Remarks by Academician V. V. Struminskiy at the Opening of the All-Union Seminar on Turbulent Flow of Liquids and Gases**

4 **Friction and Heat Transfer in Turbulent Wall Flows of Liquids with Polymeric Additives**
L. I. Sedov, V. A. Yoselevich and V. N. Pilipenko

23 **A New Trend in Analysis of Turbulence**
V. V. Struminskiy

29 **Elementary Models of Nonlinear Interactions in Turbulent and Convective Flows**
A. M. Obukhov and F. V. Dolzhanskiy

42 **Statistical Modeling of Flows of Ideal Monatomic Gases**
O. M. Belotserkovskiy and V. Ye. Yanitskiy

53 **Application of Phenomenological Models to Analysis of Turbulent Boundary Layers of Homogeneous and Inhomogeneous Gases**
R. A. Safarov and G. A. Tirskiy

69 **Numerical Analysis of a Turbulent Boundary Layer with Sharp Variations in Boundary Conditions**
V. A. Aleksin and V. D. Sovershennyy

80 **Flow in Pipes with Regular Artificially-Produced Wall Roughness**
V. I. Subbotin, M. Kh. Ibragimov, G. S. Taranov and V. I. Gusakov

87 **Non-Self-Similar Turbulent Jets**
G. N. Abramovich, S. Yu. Krasheninnikov and A. N. Sekundov

102 **Modeling of Turbulent Wakes in Ideal Fluids**
S. M. Belotserkovskiy and M. I. Nisht

116 **Response of Unstable Laminar Boundary Layer to Acoustic Excitation**
Ye. V. Vlasov, A. S. Ginevskiy and R. K. Karavosov

125 **Similitude Postulates in the Theory of Turbulent Cocurrent Flow**
A. I. Korneyev

132 **The Single-Harmonic Theory of Wall Turbulence**
M. A. Gol'dshtik and V. N. Shtern

143 **Model Equation for the Probability Density in the Semiempirical Theory of Turbulent Transport**
A. T. Onufriyev

153 **Probability Distribution of Velocity Fluctuations in Turbulent Free and Wall Flows**
V. I. Bukreyev, V. V. Zykov and V. A. Kostomakha

Number 2

1 **Statistical Properties of Turbulence in the Inertial Subrange of the Spectrum**
V. R. Kuznetsov

10 **Application of Results of Analysis of Transient Vortex Flows of Ideal Fluids to Description of the Turbulent Mixing Layer**
G. I. Taganov and I. V. Dudoladov

24 **A Phenomenological Model and Experimental Study of Turbulence in the Presence of Density Fluctuations**
A. N. Sekundov

31 **Simulation of Turbulent Flows in Dilute Polymer Solutions**
V. N. Pilipenko

39 **The Use of the Linear Statement of Turbulence Distortion in Modeling of Turbulent Stresses in Free-Turbulence Flows**
V. L. Zimont and V. A. Sabel'nikov

48 **Effect of Turbulization on the Initial Zone of a Jet in Cocurrent Flow**
N. I. Akatnov

56 **Experimental Study of Loss of Stability in Spherical Couette Flows**
I. M. Yavorskaya, Yu. N. Belyayev and A. A. Monakhov

67 **An Experimental Study of Characteristics of Turbulent Friction at Supersonic Velocities**
A. D. Khon'kin and G. K. Shapovalov

80 **Turbulent Flows of Incompressible Liquids in Various Channels**
N. I. Buleyev

90 **Statistical Properties of a System of Discrete Eddies Simulating Turbulent Jet Flow**
A. B. Ayrapetov

100 **An Experimental Study of the Initial Part of a Free Annular Jet with Finite Radial Dimensions under Entrainment Conditions**
K. Kuzov, A. Melikov and A. Zerinov

109 **The Turbulent Boundary Layer in Multicomponent, Chemically-Reacting Flows**
Yu. V. Lapin and Yu. S. Chumakov

124 **Two-Phase Turbulent Jets**
T. A. Girshovich

136 **Concerning a Possible Way of Setting up an MHD Experiment for Checking the Relaxation Theory of Turbulent Flow**
A. S. Pleshanov, A. B. Tsinober and M. A. Chusov

150 **Development of Perturbations in Two-Dimensional Laminar Flows**
B. Yu. Skobelev

161 **A Phenomenological Theory of Turbulence**
A. M. Golovin

Number 3

1 **Investigation of Fluctuations and Continuity of Two-Phase Flows**
B. S. Fokin and Ye. N. Gol'dberg

8 **Test Data on the Flowing Voids Fraction of a Two-Phase Flow in a 617-mm-Diameter Riser of Hydrodynamic Reactor Model**
I. S. Dubrovskiy

13 **Development of Apparatus for Measuring the Droplet Size Distribution of Wet Steam in Turbomachine Flow Passages**
A. L. Dobkes and L. A. Fel'dberg

20 **An Experimental Investigation of Drop Entrainment in the Bubbling of Air Through a Viscous Fluid**
V. G. Zheltov, V. I. Petukhov and P. A. Tselishchev
30 **Maximum Forces Acting on a Body Immersed in a Fluidized Bed**
Yu. Ye. Livshits, A. I. Tamarin and S. S. Zabrodskiy
37 **The Effect of Properties of the Pumped Fluid on Cavitation in Centrifugal Pumps**
S. S. Rudnev, B. A. Kol'chugin and L. R. Kevorkov
55 **The Cavitation Mechanism in Water at 120° to 250° C**
B. A. Kol'chugin, L. R. Kevorkov, R. I. Soziyev and S. Z. Lutovinov
65 **Investigation of the Wave Structure of a Jet Entry-Zone Flow at Various Levels of Initial Turbulence**
E. V. Vlasov, A. S. Ginevskiy and R. K. Karavosov
74 **Experimental Investigation of Local Properties of Swirled Turbulent Flow in Cylindrical Channels**
Ye. P. Sukhovich
85 **Characteristics of Turbulent Boundary Layers at High Free-Stream Turbulence**
E. Ya. Epik and L. A. Rumyantseva
91 **Investigation of Flow Patterns of Heat Transfer Agents in Artificially Fractured Rock**
A. V. Shurchkov, N. K. Prikhod'ko, G. N. Zabarnyy and Yu. P. Morozov
97 **Strong Interaction of a Boundary Layer and a Hypersonic Flow upon Local Perturbation of the Boundary Conditions**
A. A. Kovalenko and V. Ya. Neyland
110 **Investigation of the Dimensions of the Separation Zone Produced by Interaction of an Incident Oblique Shock and a Turbulent Boundary Layer in a Plane Converging Duct**
A. M. Pavlenko
124 **Nonequilibrium Thermally-Induced Flow Fluctuations**
I. Z. Fisher and V. P. Lesnikov
141 **Random Velocity Field Perturbations and the Equations for the Three-Dimensional Characteristic Functional of Hydrodynamics**
A. V. Levin
149 **Investigation of the Boundary Layer on the Surface of a Cylindrical Insert in a Cyclone Flow**
E. N. Saburov, S. V. Karpov, Yu. L. Leukhin and S. I. Ostashov
158 **Effect of Cooling of the Central Body on Startup, Separation of the Flow at the Intake and the Throttling Characteristics of Air Scoops at Supersonic and Hypersonic Velocities**
V. G. Gurylev and Yu. A. Mamet'yev

Number 4

i **Foreword**
S. S. Kutateladze
1 **Experimental Study of Characteristics of Turbulent Boundary Layers in Adverse Pressure Gradients**
S. S. Kutateladze, O. N. Kashinskiy and V. A. Mukhin
34 **Effect of Adverse Pressure Gradients on the Structure of Wall Turbulence**
G. I. Yefimenko and Ye. M. Khapakhpasheva
50 **A Parametric Method for Solving the Equations of Turbulent Boundary Layers in Pressure Gradients**
D. N. Vasil'yev
57 **Frequency Characteristics of the Electrochemical Shear-Stress Pickup**
P. I. Geshev
65 **Survey of Models for Calculating the Flow of Incompressible Fluids in Square Cavities**
A. V. Gorin
90 **Experimental Study of Shear Stress at Cavity Walls**
V. Ya. Bogatyrev and V. A. Mukhin
101 **End Effects in Rectangular Cavities**
V. Ya. Bogatyrev and A. V. Gorin

107 A Feature in Turbulent Crossflow over a Cylinder
V. M. Karsten and V. V. Orlov

□◆◆◆□

109 The Turbulent Boundary Layer on a Permeable Plate at Different Free-Stream Turbulence Levels
A. I. Alimpiyev, V. N. Mamonov and A. L. Sorokin
114 Calculation of the Critical Flowrate in One-Dimensional Two-Phase Flows
I. S. Radovskiy and E. I. Dryndrozhik
118 Electric Conductivity of Gas-Liquid Emulsions and Foams
K. B. Kann and V. N. Feklistov
126 An Experimental Investigation of the Interaction of a Jet of Liquid with a Hypersonic Flow of Gas
M. K. Gladyshev, V. A. Gorelov and A. S. Korolev
133 Solution-Accompanied Rise of a Spherical Bubble in a Liquid at Rest
V. G. Bogdevich and N. K. Ruban
139 Streak Photography of Jets Produced by a Hydromonitor Nozzle
Yu. D. Ukrainskiy
143 Numerical Solution of the Problem of Determining the Average Axisymmetric Flow of an Ideal Gas through Turbomachine Stages
M. Ya. Ivanov and Yu. I. Kimasov
153 Interference of Vortexes with Shocks in Airscoops. Dissipation of Vortexes
V. V. Zatoloka, A. K. Ivanyushkin and A. V. Nikolayev
159 The Asymptotic Theory of Hypersonic Flows with Nonequilibrium Ionization in the Vicinity of the Critical Point
V. P. Agafonov, M. M. Kuznetsov and O. Yu. Polyanskiy

Number 5

i Foreword
S. S. Kutateladze
ii Nomenclature
1 An Extension of the Stroboscopic Flow Imaging Method: The "Three-Coordinate" Technique
V. V. Orlov and E. S. Mikhaylova
14 Investigation of Turbulence in Flow of Water in a Channel with Parallel Walls
E. M. Khabakhpasheva and E. S. Mikhaylova
30 Wall Turbulence in Flow of Weak Polyacrylamide Solutions
E. S. Mikhaylova and E. M. Khabakhpasheva
37 Investigation of Wall Turbulence Characteristics in a Short Plane Diffuser
E. M. Khabakhpasheva, G. N. Yefimenko and I. M. Gruzdeva
62 Measurements of Skin Friction on a Flat Plate by the "Splitter Plate" Method
V. M. Kalvavkin, V. G. Kolkov and I. M. Pinitsa
68 Issuance of Underexpanded Gas Jets Head-On into a Supersonic Flow
Ye. P. Stolyarov
80 Certain Types of Separated Flow over Slotted Wings
A. V. Petrov
90 An Experimental Method for Investigating the Mutual Aerodynamic Interference of Aircraft Components at Supersonic Velocities
I. G. Vasenev and A. M. Kharitonov
99 Experimental Check of a Direct Method for Optimizing the Aerodynamic Shape of Bodies in Supersonic Flows
N. N. Glushkov, D. P. Kromkov and L. M. Shkadov

109 **Pressure Distribution on Sharply Pointed Cones in Transonic Flow at Attack Angles $\alpha = 0$ to 10°**
P. G. Leutin
114 **Analysis of the Dynamics of a Hydraulic Actuator-Servomotor System taking into Account Nonlinearity and Interference of the Two Working Chambers**
A. P. Alekseyev and V. A. Chelyshev
127 **Interaction of a Spherical Shock Wave with a Plate**
V. P. Borisovskaya and A. N. Ivanov
134 **Determination of the Mixing Length in Turbulent Flows in Pipes and in Boundary Layers on the Basis of Measured Turbulence Characteristics**
Ye. P. Dyban and E. Ya. Epik
141 **Relationship between the Burgers Equation and the Differential Stochastic Equation**
I. A. Ogorodnikov
145 **Mean-Velocity Distributions in a Falling Film**
M. G. Semena and G. A. Mel'nichuk
152 **Effect of the Angle of Collision on the Dynamic Interaction of Droplets**
A. M. Podvysotskiy and A. A. Shrayber

Number 6

1 **Experimental Determination of the Integral Scale of Boundary-Layer Turbulence**
G. I. Derbunovich, Ye. U. Repik and Yu. P. Sosedko
9 **The Turbulent Boundary Layer on an Elastic Surface**
G. A. Voropayev and V. V. Babenko
18 **Asymptotic Analysis of the Turbulent Boundary Layer of an Incompressible Fluid**
V. I. Ponomarev
29 **Application of the Turbulent Energy Balance for Calculating Buoyant Surface Jets of Incompressible Fluids**
V. P. Prokhod'ko and M. L. Rubtsov
38 **Stability of Stratified Flows. The Viscous Two-Layer Flow**
Yu. G. Golovachev, O. N. Marennikova and A. A. Tarnavskiy
54 **A Generalized Droplet Size Distribution Function**
E. G. Bratuta and A. R. Pereselkov
60 **Flow, Hydrodynamic Forces and Hydraulic Drag in Staggered Radial Tube Bundles in Crossflow of Viscous Liquid**
A. A. Žukauskas, V. J. Katinas, V. S. Šuksteris, and A. N. Mikishev
72 **Pressure Surges in Non-Conservative Hydraulic Systems**
L. N. Kartvelishvili
81 **Vertical Cavitation Flow**
S. I. Gul'nev and E. N. Kapankin
89 **Certain Aspects of Hydraulics of Pressure Spillways (Conduits) with Air Pockets**
A. M. Shvaynshteyn
97 **Distribution of Impact Pressure at the Point of Impact of a Jet Falling from the Crest of an Unfinished Concrete Dam**
G. L. Rubinshteyn, A. A. Kruchinina and M. D. Rudakova
106 **Flow in a Spillway with a Side Weir**
N. B. Yankovskiy
120 **Equations for Hydraulic Design of Baffles with Different Slopes of the Forward Face**
T. P. Provorova
127 **Critical Cavitation Parameters for Baffles of Various Shapes**
T. P. Provorova and N. I. Zharov
136 **Correction Factors for the Flowrate and Momentum of Components of Sediment Flows in River Beds**
A. B. Veksler
